

FIVE DEATHS TRACED TO MYSTERY GANG

SID HATFIELD FIRED FIRST, LIVELY SAYS

WELCH, W. Va. — (By Associated Press) — Self-defense is the claim of C. E. Lively, Baldwin-Felts detective held under bond in connection with the shooting and killing of Sid Hatfield and Ed Chambers, Mingo mountaineers, in a statement to newspaper men today.

"I regret having had to shoot either one of these men," Lively said, "but it was a case of self-defense pure and simple."

"The gun fight on the steps of the courthouse last night perhaps a quarter of a minute," the detective added.

Lively said he had been told many times that following his testimony given in the Matewan trial last February Hatfield had threatened to take his life. "I knew that if Sid got what he considered a 'good chance' it would be either his life or mine," Lively asserted.

Speaking of the Welch fight, the detective said he was sitting on a balcony outside the courthouse when Hatfield, Chambers and their wives approached. "I happened to look down the steps and there stood Sid Hatfield, Ed Chambers and a few wives on the first landing. They were looking at me, and exchanging glances, none of their heads. Sid said something to Ed I could not hear. So only they stepped apart. I could see Ed's jaws set like a steel trap. Both men pulled their guns. As they did so I jumped to my feet and pulled mine. Sid fired at me and I immediately cut back."

LIMA PEOPLE APPRISED OF DEATH OF PARENT

Mrs. Alice O. Shealy, 615 E. Eureka-st., received word of the death of her father, L. N. Shumate, formerly of Lima, who died while in the south, where he had gone a year ago for his health.

The body will be taken Sunday noon to Bellefontaine. Interment will be in Mount Zion cemetery there. In the midst and seven children survive. They are besides Mrs. Shealy, Charles Shumate, E. Elms, Mrs. O. O. Shealy, E. Eureka-st.; Oscar Shumate, Carey; Harry Shumate and Mrs. A. R. Hayes, both of Port Huron, Mich.; Mrs. A. Richeson, Tennessee City, Tenn.

FARMER LASSOS NAVY'S FRISKY RUNAWAY BLIMP

NEW YORK. — (By Associated Press) — The navy's smallest and friskiest blimp, the H-1, was brought ignominiously home to the Rockaway naval air station today after a wild solo flight to Scarsdale, 50 miles away. The return trip was made on a truck.

The H-1 bumped her crew of three into the marshes of Barnes Island yesterday while they were trying to land because of engine trouble and rid of their weight, bounded off. A fleet of navy trucks set out in pursuit, arriving in Scarsdale to find H-1 had effected a nice landing and had been thrown and roped by workmen on the farm of Colonel Alexander Crane.

\$330,000,000 LOPPED OFF U. S. INCOME

WASHINGTON. — (By Associated Press) — A shrinkage in three months of \$330,000,000 in the estimated government income for the fiscal year, based on the present revenue law, is disclosed by the statement recently presented to the house ways and means committee by Secretary Mellon. The total income is estimated now at \$1,217,643,000 as against the estimate of \$1,547,643,000 contained in Mellon's letter of last April 30, to Chairman Fordney. In the same time the estimated expenditures have decreased only \$11,864,216.

The estimated excess of disbursements over receipts is placed now at \$336,369,517, as compared with an estimate of \$18,234,033 made by the treasury last April.

The total shrinkage in receipts, \$130,000,000, is charged to the expected falling off in internal revenue, largely as a result of the present business depression. The remaining \$200,000,000 is accounted for by a revision of the estimated amount to be received in interest on foreign obligations.

WINNING — Toadstools, eaten in the belief they were edible mushrooms killed seven persons in one family at Stuartburn, near Dominion City. A six months old baby alone survived.

SQUARE DEAL IS DEMANDED FOR JAPAN

CHICAGO. — (By Associated Press) — America's policy toward Japan is one of unfair and un-Christian discrimination, the Rev. Dr. Frank Hermon Smith, a Methodist missionary in Japan for 16 years, declared here today, as he left to return to the Orient.

"Just so long as we persist in our attitude just that long will there be a dark cloud of possible trouble hanging in the Oriental sky," he added.

"The challenge of Japan is not a challenge to fight. I was sent to America by our mission and by the Japan Methodist church to tell you that Japan does not want war but a square deal."

Dr. Smith suggested that the solution of the question might lie in the decisive limitation of all immigration and in requiring all who come to the United States to become truly naturalized, honest-to-goodness American citizens. "Japanese are now forbidden naturalization."

The missionary intimated he endorsed Japanese expansion in Manchuria and Siberia, a movement which "has disturbed American thought. 'Is it not right,' he asked, 'that Japan should not find outlet for her surplus population in the vast open spaces of Manchuria and Siberia? What has Russia with her penal colonies and her Bolsheviks ever done for Siberia any way and by what right does she hold it?'"

SUIT FOR INSURANCE ON WRECKED MOTOR CAR

Orin M. Green, contractor, in a suit filed in common pleas court against the National Mutual Insurance company, late Friday, seeks damages for destruction of his large Cadillac automobile, which was destroyed when Gary Merrell, negro, drove it on a joy ride the night of April 30, last.

Green says he had insured the car for \$3,800 on April 16, previously, just after its purchase. Merrell took the automobile from a garage and drove it against a telephone pole, causing destruction of the car.

One of the negroes on the joy ride was killed.

PICTURE SENT ACROSS OCEAN BY WIRELESS

ANNAPOLIS, Md. — (By Associated Press) — Transmission of photographs and written documents in fac simile across the ocean by wireless has been accomplished. Two successful tests of this epoch-making invention have been made within the last three days at the powerful naval radio station here, a photograph and a written message having been sent to Malmson, the French radio station.

The first test of the invention was the sending of a photograph of the recent Dempsey-Carpenter championship fight from the Annapolis station to France for reproduction in Le Matin, Paris newspaper.

NINE HELD IN KILLING AT CARD GAME

CANTON. — (By Associated Press) — Canton police today were seeking new clues in the murder here late Thursday night in a cottage near Meyers Lake park, of August C. (Gig) Hahn, well known sportsman, and the wounding of Edward Markling, former cafe owner, by seven foreigners who were reported to have broken up a card game in which Hahn, Markling and ten other Canton business men were participating.

None of the nine foreigners arrested have been identified as being connected with the murder. Police are trying to determine cause of a long delay in reporting the shooting to the sheriff's office or police headquarters. Several hours are said to have elapsed between the time of the murder and the time police were notified. Coroner McQuate will hold an inquest today. The players have not been detained by authorities who say they are all business men who will be present to testify when wanted. The condition of Markling, who was shot in the left breast was improved today and hospital authorities say he may recover.

SCARSDALE, N. Y. — The towed dirigible H-1, which escaped from the Rockaway Naval Air Station, came down here, after having covered about 50 miles.

'HIGH JACKERS' SPREAD TERROR IN TWO STATES

KANSAS CITY. — (By Associated Press) — Bandits, termed "high jackers," who are making a business of riding freight trains in a wheat belt of Kansas and parts of Oklahoma, robbing harvest hands, are becoming more bold and are receiving increasing attention from local authorities, according to reports received here today.

CLIMAX REACHED

"High jacker" activities which have been reported almost daily throughout the harvest season, reached a climax when two of the robbers attempted to hold up a party of former soldiers and harvest hands aboard a freight train running between Keokuk and Fairley, Kansas.

AMERICANS IN RUSSIA JAILS NOT SET FREE

WASH. — (By Associated Press) — American officials here have prepared, at the request of the Washington state department, a full list of all American citizens in Russia, including those in bolshevik prisons. This list will be turned over to Walter L. Brown, European director of American relief who will confer here with delegates of the Russian soviet government.

Whether the United States will demand that all these Americans be sent out of Russia or that only the six or seven persons imprisoned be liberated, is not known. It is certain that at least 100 claiming to be Americans are in Russia and are seeking to leave the country, and it is believed efforts will be made to facilitate their speedy return to the United States.

The departure from Russia of Americans had not been reported up until late yesterday afternoon.

early this morning. The former soldiers, who had just been discharged from a Texas army camp, began shooting and in the exchange of shots that followed, one man, said to have been a "high jacker," was killed and four of the former soldiers and harvest hands injured. The remaining robber escaped after a terrific fight in which he threw half a dozen of his opponents from the moving train.

MYSTERY MURDERS

With the number of complaints from victims of the robbers growing, officials of several smaller Kansas towns were reported to be investigating mysterious murders in their localities on the theory that the "high jackers" may have committed them. There have been five or more unexplained killings in the Kansas wheat belt in the last month, the victims having been supposed harvest hands.

Special efforts are being made in all of the wheat belt towns, it was said, to ascertain whether the "high jacker" operations are the work of an organized band or whether the men are individual criminals.

CONSTRUCT NEW WALKS AND RUSTIC BRIDGES AT DISTRICT HOSPITAL

The grounds at the District Tuberculosis hospital, southwest of Lima, are being improved by building a number of rustic bridges over small ravines, grading the lawns and the construction of walks.

According to Dr. C. A. Files, superintendent, the walks are being constructed so that patients may have better means of exercise. The bridges are to beautify the grounds. Work of this character will be in progress during the remainder of the summer, Dr. Files stated.

Funds for the hospital, the lack of which has always proven a severe handicap, were assured at a joint meeting of the five county boards in April. Allen-co's share was incorporated in the recent budget passed by the commissioners.

JAMES J. DAVIS

5%

UNITED STATES SECRETARY OF LABOR

DIRECTOR GENERAL LOYAL ORDER OF MOOSE

Well known to thousands of people of Allen County, and whose well merited rise in the affairs of the nation is approved by thousands more, tells today

"How I Saved My First Thousand Dollars"

How did I save my first thousand dollars? The first thousand, I will say, came hard. Perhaps for that reason I remember it as if it were yesterday. I was working, then, in the tin mill at Elwood, Indiana. And I was working hard. If any man has a harder job than a tin worker, that man will have to "show me." If any worker is entitled to amusement and relaxation, it is a tin worker. All the same I saved. Every payday I emptied my pay envelope and paid my board and other bills. No matter what they were, or what I made, I put something by. Sometimes it was only a little, sometimes it was more, but always it was something. I made a point of that. Then came the pleasure of watching the savings grow. Then there was another thing—I always made it a point to send part of my weekly earnings to my mother. That helped me to develop the habit of thrift.

At first it wasn't much of a pleasure. The pile grew pretty slowly, or at least it seemed to. I had my determination fixed on saving a whole thousand dollars, and I never realized before what a pile of money a thousand dollars is—the first thousand! It came hard. I thought I would never make it sometimes.

Now and then the mill would shut down, and I would have to dip into the savings account to pay that board bill. When things started again I tried to make up the lost ground. It took patience. The first thousand, I knew, was going to be the hardest thing of all to save. But I stuck to it, and the day came when the thousand dollars lay there in my Savings Account, every dollar of it earned by the sweat of my brow, every dollar of it mine. As any other man who saves his earnings, I had become a capitalist to the extent of having a thousand dollars of hard won money to my credit. That was good enough in its way, but it was not the best of it. The best of it was I had learned self-denial, and thrift and economy. I wasn't a wastrel. The virtue of saving had been taught me, and I had something to show for it. A thousand dollars to show for it.

What did I do with that first thousand? you may ask. I bought a lot and built a home. I can see that place in my mind's eye today. Maybe I wasn't proud of it? My two strong hands had brought me that. It stood there, a lasting, material, visible sign that I belonged to the kind of hard-working Americans who save. The old rules had worked out as they always have done. Savings comes hard, at first, but it's the best rewarded virtue I know.

What Jim Davis did, you can do. No one had a harder struggle than he, but as he says, self-denial accomplished results. Why not commence here and now—You will get 5 per cent interest and 100 percent safety.

LIQUOR RAIDS ARE STAGED
Touring Car, Wrecked, Found Abandoned

WAPAKONETA — (Special.) — "Playing doctor" with strychnine tablets they found on a table, Ralph, 4, and Madge, 5, children of Mr. and Mrs. John Nash, swallowed nine of them. It was only thru heroic measures that they were revived. They attempted to feed one to the baby, aged 2 years, but being extremely bitter, he spat it out.

State prohibition officers and Constable Jacob Helitz pulled a series of liquor raids in Jackson and Dinamoro-tps, Shelby-co. On the farm of William Allenback they found a still in operation, ten quarts of corn whiskey, 76 gallons of mash, a copper kettle and other paraphernalia. He was fined \$600 and costs.

Trial for Clarence Allenback, arrested in connection with William Allenback, was set for August 11. Louis Wildermuth, Otis Boyer and William Kies, of Botkins, were each fined \$100 and costs.

The sheriff's office is investigating the finding of a big Cole Eight auto on the Dixie Highway near here. It was abandoned in a wrecked condition.

Co. K, of St. Marys, has been secured to police the grounds at the 58th annual Anglaise-co fair, August 30 and 31, and September 1 and 2.

Edward Collins and Milton Backman, of the Detroit Boy Scouts, taking a hike to Cleveland by a round-about way, were visitors here Friday.

A "wheeled palace" completed in a local factory for Charles Wirtz, St. Marys garage-man, was given its maiden trip Friday. It is large enough to accommodate three persons and has all modern conveniences found in an up-to-date home. Wirtz and his family will tour the south in it.

HARDING ON WAY BACK TO CAPITAL

LANCASTER, N. H. — (By Associated Press.) — President and Mrs. Harding said good-bye today to their vacation retreat here at the top of Mount Prospect, where they have been the guests, since Tuesday, of Secretary Weeks.

Leaving this morning by automobile, the party planned in the evening to board the presidential yacht Mayflower, at Portland, for their return voyage to Washington.

The resident probably will spend most of the afternoon at Poland Springs playing golf. During the late afternoon he is expected to go into Portland and call on Mrs. Matthew Hale, widow of the late Senator Frederick Hale, who has been a member of the Mount Prospect vacation party.

The Mayflower will sail about ten o'clock tonight.

CAT AND FAMILY MISTAKEN FOR GHOSTS

HUNTINGTON, W. Va. — Another good "spook" story has gone glimmering. The theory that a house in Highlawn was haunted and that spirits were making definite and noisy demonstrations was exploded when the flooring on the top story was removed and the house cat, which had been imprisoned there for several days, marched blithely forth, with nine little kittens in her wake. For several days weird sounds had been emanating from various sources on the top floor of the house, and the occupants, who recently moved in, were beginning to fear that there was, after all, something in the superstition about houses being haunted.

When the family moved in it was necessary to have certain repairs made to the electric wiring. A part of the flooring was removed and later replaced. The cat went beneath the flooring when it was torn up and was imprisoned inside by the electricians in finishing their work.

GIRL DASHES TO DEATH DOWN TRACKS OF SUBWAY

NEW YORK — Katherine Hogan, 24, was electrocuted by the third rail in a Brooklyn subway today after dashing down the tracks away from a taxicab driver who had carried her and two girl companions to the station from Manhattan.

Her companions told police that the driver offered to carry them home without charge and that when he asked for \$2.70 fare as they alighted near the subway station, they ran and two of them jumped down upon the tracks.

Two subway employees pursued them, reaching the girls just in time to dodge a roaring express by standing between pillars separating the tracks. When the cars had gone by, Miss Hogan again ran away, and it was while trying to climb back on the platform that she fell to her death.

PREMIER PRISONER
KAHOKA, Mo. — For the first time in a year the jail here has an inmate. Newton Shady occupies a lonely cell, charged with assault following the shooting of Earl Kay, a small boy. The gun was supposed to have been empty. The Kay boy's condition is not serious.

WORLD NEWS

PARIS — France, replying to an inquiry made by the state department at Washington, agreed to November 11 as the date for the conference in Washington on disarmament and far Eastern questions.

NEW YORK — The complaint against Giuseppe De Filippis, a truckman of Bayonne, N. J., arrested several months ago by agents of the department of justice in connection with Wall-st explosion was dismissed by U. S. Commissioner Hitchcock.

MADRID — Twenty Spanish soldiers, the last remnant of the Spanish troops to resist capture of the town of Nador, 15 miles south of Melilla, were massacred after having surrendered.

WASHINGTON — More than a thousand Assyrian Christians, fleeing from persecution by Mohammedans are on their way to the United States in small sailing vessels.

NEW YORK — Ellis Guy Kinkead was shot to death in his Brooklyn home by Otto M. Stone, a trained nurse of Cincinnati, Ohio, who said she lived with Kinkead as his common law wife a few years ago and that he subsequently deserted her.

BONDS FOR SEWER PLANS OFFERED

Received September 12 Bids For \$25,000 Issue to be

Bids will be received at the office of City Auditor David L. Rupert up to 12 o'clock noon, September 12, for \$25,000 general sewer bonds, issued by council to pay cost of plans for sewers to be constructed in the distant future.

Issuance of the bonds was authorized by council in July, and a contract for drawing the plans was signed by Service Director Elmer McClain and Fuller & McClintock, contractors, on Wednesday.

The contract provides for large compensation to be paid the engineers, in case they are called on for extra service. City officials have not been able to explain why the form of the contract so drawn, does not virtually compel the city to employ the firm as consulting engineer. The contract states that the city may do so and binds the engineers to do so.

The bonds are in denominations of \$1,000 each, and must sell at par, to earn 6 per cent, payable semi-annually. Bonds will be sold to the highest bidder, with accrued interest. Bidders are required to state the number of bonds they are bidding on.

Payment must be made, Auditor Rupert states, within 30 days following the acceptance of the bid. The city may reject any and all bids.

NOTHER CHANCE MONDAY FOR TARDY REGISTRANTS; NONE APPEAR SATURDAY

Evidently everyone was at home in Lima July 22, registration day for the primary election, as no absentee voters appeared at the offices of the Election board in the Holmes building, Saturday morning, to register.

The board held a session from 11 a. m. until noon to allow voters who were out of the city on registration day an opportunity to get their names on the books.

No one was registered during the morning, but three voters appeared to obtain transfers from one precinct to another. They were told to visit their old precinct Monday, between 2:30 and 5 p. m., obtain a transfer and deliver it to the board.

Monday another session will be held by the board, for convenience of voters who were out of the city on the regular registration date. The voters are from 1 p. m. to 5 p. m. All voters who were absent from Lima, can get their names on the poll books by appearing before the board Monday afternoon.

Votes of absentees who will not be in Lima to cast a ballot on Tuesday, are being received by the board. They will be kept separate, and will be added to the total vote cast.

HE MADE GOOD, BUT DID IT BADLY

CLINTON, Mass. — Because "a Welch always made good any statement he made," John Welch, once noted as a distance runner, leaped eighty feet from a railroad bridge into the Nashua river. He was taken to the hospital, where he was found to be suffering from fractured ribs and internal hurts to his chest.

NOTICE TO MOTORISTS
NORTHAMPTON, Mass. — Usage may make customers, but it doesn't provide an alibi for a young man attempting to drive an automobile with one hand, while his other gently encircles the yielding waist of a maiden.

Such at least is the opinion of Judge John B. O'Donnell, who slapped a fine of \$15 on Joseph Sellvitz, of Springfield, in District Court for violating a minor traffic regulation.

HEAT DRIVES HORSE TO SUICIDE
HARRISONVILLE, Mo. — Two horses, hitched to a cultivator on the farm of Alfred Dodd, who resides near Austin, became crazed with heat and plunged into a river. One of the animals drowned before Dodd, who had been resting in the shade, could make a rescue.

ALLEN-CO FARMER DEATH VICTIM

Herman Brinkman Dies at Delphos—Factory Sold

DELPHOS — (Special.) — Herman H. Brinkman, 68, of this city, long time resident of Allen-co, died Thursday at his home here after a two weeks illness of yellow jaundice. Brinkman was a farmer and followed this occupation up until his last illness.

He was born in Gerany, and came to this country with his parents, Herman and Josephine Brinkman when 17 years of age. He lived in this district ever since.

Eight children were born to Mr. and Mrs. Brinkman, seven of whom survive as follows: Ignatius, Herman, George, Mary, Harry and Frank, of Delphos and Leo, of Gallopols.

Funeral Monday morning.

All remaining property of the Glanmorgan Tire & Rubber Co. was disposed of Thursday when all holdings of the company in Columbus were sold at auction. Nearly everything brought a better price than the appraised value. Judge John F. Lindemann of this city conducted the sale. Arnold B. King of this city, trustee in bankruptcy, was present. Twenty stockholders of the company purchased the factory building in this city and are endeavoring to locate a manufacturing concern here.

According to Putnam-co farm agent Windau over 30 per cent of the chickens of the county have been culled without decrease in the egg yield. He asks that the other 70 per cent be culled, and has arranged a series of demonstrations.

GIRL CONFESSES KILLING LAWYER

NEW YORK — (By Associated Press.) — Miss Olivia M. P. Stone, a graduate nurse, formerly of Cincinnati, was told today that she killed Ellis Guy Kinkead, attorney and former republican counsel of Cincinnati, when she fired six shots into his body, near his home, in Brooklyn late yesterday.

The young woman was too hysterical last night to be told that Kinkead was dead and the police told her the bullet she fired had taken effect in his legs.

She swooned after the shooting into the arms of a detective who rushed up to disarm her.

Miss Stone, according to the police, admitted the shooting and declared Kinkead was her common law husband and that he had deserted her to marry another woman.

Kinkead had lived here since 1919 with the former Miss Marie Louise Gormley, of Covington, Ky. whom he married in Cincinnati.

HUSBAND BEAT HER, WIFE CLAIMS IN DIVORCE SUIT

Charges that her husband, Fern M. Martin, beat her into unconsciousness, is made in a suit for divorce, filed by Mrs. Ardona M. Martin, in common pleas court, late Friday.

Mrs. Martin states they separated on May 14, 1912, two years after their marriage, and that he has since threatened her bodily harm. The couple were married in Kokomo, Ind., on January 29, 1910, and have no children.

PARKER'S HAIR BALM
Removes Dandruff, Itches, Redness, and restores Color and Beauty to Gray and Faded Hair. Sold at all Drug Stores. Price 25c. Wm. C. Parker, Inc., New York, N. Y.

RESOLUTION NO. 451.
Whereas, on the 14th day of May, 1921, this council passed its resolution number 123, entitled, "A resolution declaring it necessary to purchase and install switch board (regulator) and feeders, change present switch board and erect additional pole lines and the dome of all other things necessary and incidental for the connection of the boulevard street lighting system with the lost creek pumping station and furnish current from said station for the maintenance of such lighting;" and

Whereas, it has since been made to appear that there was a mistake and error in such resolution in this to-wit: That it was the intention to connect said lighting system with the North street main pumping station and not the lost creek pumping station; and

Section 1. That it is necessary to purchase and install switch boards, regulators, lighting arresters, feeders, change present switch board and erect additional pole lines for the connection of the boulevard street lighting system with the lost creek pumping station; and

Section 2. That the whole cost and expense of said improvement, together with the cost of any real estate or interest therein purchased or appropriated and the cost and expense of any appropriation proceeding therefor, and the damages awarded any owner of adjoining lands and interest thereon, and the cost and expense of any such award shall be paid out of the fund to be raised by the issuance of bonds or notes in the manner provided by law.

Section 3. That said improvement shall be done in accordance with the plans, specifications, estimates and profiles prepared by consulting Engineer Gammer and now on file in the office of the director of public service for inspection of all persons interested; that said plans, specifications, estimates and profiles be and the same hereby are approved.

Section 4. That said resolution number 433, passed May 16, 1921, and entitled, "A resolution declaring it necessary to purchase and install switch board, regulators, lighting arresters, feeders, change present switch board, erect additional pole line and the dome of all other things necessary and incidental for the connection of the boulevard street lighting system with the lost creek pumping station; and furnish current from said station for the maintenance of such lighting;" be and the same hereby be repealed.

FORMER MEMORIAL HALL CUSTODIAN APPOINTED AS CITY SAFETY HEAD

After repeatedly evading all inquiries Friday and hiding behind the statement that he did not think he would appoint a new safety director that day, Mayor Burkhardt named D. W. Dorris, 731 E. Franklin-st. one time custodian of Memorial hall, to succeed C. M. Hendershott. He takes office Monday.

Mayor Burkhardt and the new director are said to hold the same views regarding the conduct of the police department.

Dorris will immediately attempt to reorganize the department along lines approved by his chief. This probably means that all of the many investigations stirred up by the Mayor in the past year will be dragged into the lime-light again.

Dorris is the third safer since the resignation of Fred Fisher. The first was Rev. J. Norman King, who filled the office temporarily, C. M. Hendershott who sickened of the job after 17 days, and now Dorris. The new director says he will not devote his entire time to the office during the remainder of the present regime. His salary is \$50 a month.

UNIONS CONTEST WAGE CUT

TORONTO — (By Associated Press.) — The four big railroad brotherhoods in Canada announced today they would jointly contest the 12 per cent wage cut, which has been sent into effect on the Canadian railways. They have applied to the government for a board of conciliation.

Representatives of the Order of Railway Conductors, the Order of Railway Telegraphers, the Brotherhood of Engineers and Firemen and the Brotherhood of Railway Trainmen reached their decision after a ten day conference in Montreal. They also considered taking a referendum vote on the wage reductions.

The decision of the unions to take joint action is said to be unprecedented.

LOAN LACK, WAITING FOR LOWER MATERIAL COST, HALT BUILDING

Millions of dollars worth of work, more than ever in the history of the country, is waiting to be done and never before was there less being done.

Such is the summary of the present day situation in building construction, made by John Farley, a Chicago contractor, in charge of building the Collett-st. sewer.

In the Chicago district alone, building is at a standstill, Farley stated, although the city is three to five years behind and hundreds of reasons from big corporations down to small householders are waiting.

Some are unable to get loans, others want costs to come down, while many are hanging back, waiting for someone else to take the lead.

If this inertia can be overcome, Farley believes that prosperous times will return on the run.

OIL PROTESTS UP TO COURT

Highest Mexican Tribunal to Pass on Disputes

MEXICO CITY — (By Associated Press.) — Consideration of article 27, of the Mexican constitution, nationalizing petroleum deposits, will begin in the Mexican congress next Monday.

More than 150 protests against the application of article 27 will be taken up by the supreme court here next week. These have been filed with the court since 1916, by petroleum companies. It is pointed out here that the court's decision relative to these protests will have a direct bearing on the controversy as to whether the article in question is retroactive in its application.

WASHINGTON VIEWS. — Determination of at least a part of the Mexican congress to institute a new endeavor to render acceptable to foreign interests article 27 of the constitution was regarded here today as indicative of the desire in Mexico to find a basis on which diplomatic relations with the United States might be restored. State department officials refused to comment, but it was made plain that the policy of the United States government had not been changed.

The proposed legislative declaration that article 27 shall not be construed as retroactive was in peculiar interest here as it was upon that point the United States chiefly insisted in its suggestion that a treaty of amity and commerce be signed. President Obregon held that he had no right to sign such a treaty prior to the recognition of his government.

FAILURE TO PROVIDE IS CHARGE IN DIVORCE SUIT

Failure to provide for herself and children is charged in a suit for divorce which Mrs. Josie Argo Newland filed in common pleas court late Friday, against her husband, George W. Newland, residing near Roundhead.

Mrs. Newland charges her husband used her property for his own purpose. She asks his dower in property she owns, consisting of two acres in Hardin-co, be barred.

The couple were married 27 years ago and are the parents of ten children, ranging in age from 20 to 6 years.

AMBULANCE REMOVALS

SIFERD — Mrs. Zach Rose, City hospital to 734 S. Elizabeth-st.

WILLIAMS AND DAVIS — Louise Blankenship, 845 W. Market-st., to City hospital. John Moubay, Columbus Grove, to City hospital. Richard Overholtz, son of D. J. Overholtz, 319 W. Elm-st., to City hospital. William Pierce, City hospital to 514 N. Franklin-ave.

MEN AND MATTERS.

Friends of Harry Reed, S. Cole-st., are pleased to know that he is recovering at City hospital from an operation for appendicitis, to which he succumbed a week ago.

Children Cry for Fletcher's Castoria.

Honest Advertising
THIS is a topic we all hear now-a-days because so many people are inclined to exaggerate. Yet has any physician told you that we claimed unreasonable remedial properties for Fletcher's Castoria? Just ask them. We won't answer it ourselves, we know what the answer will be. That it has all the virtues to-day that was claimed for it in its early days is to be found in its increased use, the recommendation by prominent physicians, and our assurance that its standard will be maintained. Imitations are to be found in some stores and only because of the Castoria that Mr. Fletcher created. But it is not the genuine Castoria that Mr. Fletcher honestly advertised, honestly placed before the public, and from which he honestly expects to receive his reward. *Chas. H. Fletcher*
Genuine Castoria always bears the signature of

Children Cry for Fletcher's Castoria.

STRIKE ORDERED BY MUSICIANS

NEW YORK — (By Associated Press.) — Managers of vaudeville and moving picture houses felt first effects of the coming strike of musicians today although the strike was not scheduled to go into effect until midnight. In these theatres, musicians failed to appear for the customary Saturday rehearsals at which music for the next week's program is gone over.

The strike, which it is declared, would effect 100 theatres, was ordered last night by the Musical Mutual Protective Union. About 1,000 musicians are employed in the houses affected. The union maintains it is striking to forestall a lockout planned by the managers for next Tuesday. The dispute is over a proposed wage reduction.

Managers of some theatres were reported today to be importing union musicians from other cities to supplant the strikers. The local union is independent, having broken with the American Federation of Musicians.

FINANCE COMPANY DOUBLES CAPITAL

The Franklin Finance company, 400 Holland-bldg., has increased its capital stock from \$25,000 to \$50,000, including in the list of new stockholders a large number of business and professional men and bankers.

The company was organized with a capital stock of \$25,000 the first of the year, with Attorney Walter Jackson as president; John W. Roby as secretary and Franklin Cover as treasurer and general manager.

"Since the first of the year our business has more than doubled," General Manager Cover said Saturday. "We have found a general demand for our business. The outlook was so promising for the next six months we decided to increase the capitalization and take in new stockholders," he said. The same officers remain in charge.

NATAL EVENT.
Mr. and Mrs. Edwin Parkins, 811 W. North-st., announce the birth of a daughter at City hospital, Friday.

SUIT FOR \$800 ON INSURANCE POLICY

Robert P. Pine, electrician has filed suit against the Central Casualty company, Columbus, asking \$800 for failure of the company to pay him sick disability and \$5,000 for alleged breach of contract.

Pine asserts he was insured with the company against accident, and was injured by being caught between two automobiles near Findlay on September 18, while the insurance was in force. He charges the company refused to pay him for the time he was unable to work and under the care of a physician.

The Lost Needle

THERE'S an old English play known as "Gammer Garton's Needle". Its plot is woven around the loss of the family needle—no trifling misfortune in the days of old.

Today, in this era of ours, life is so rich in comforts that we seldom wonder how folks got along in the ancient world. And we sometimes forget what an important role advertising has played in making life pleasant and altogether livable.

Advertising has one of the leading parts in the eternal drama of dollars. To it is directly due much of the multiplication of products and services which has come about during the last half century.

It has smoothed the mechanics of existence—made life easier and more pleasant by bringing countless necessities—once considered luxuries—within our easy reach and into continuous use.

Think of this when you read these columns. You owe much to advertising.

And you miss much when you fail to read in

JUSTICE FOR RUSSIA

ANYONE who knows the dark story of human suffering may feel a sinking of heart when Asiatic cholera is mentioned, of all plagues the most agonizing, of all diseases the most fatal, is the view of the Toledo Blade. And to learn that the overwhelmed people of Russia, after suffering four years from the worst misgovernment of modern times, have had famine added to Leninism, and now Asiatic cholera is sweeping down thru the defenseless millions of the Volga, is to realize that the Russians are now enduring worse than war.

One of the government adventurers with the vain title of "commissar of public health" declares the unhappy country is menaced by a return of the cholera and famine of 1891 and 1892, when all the world was cowering for fear of infection from the miserable empire. If there is a danger of that calamity returning, the commissar of public health can thank his colleagues in the carpet-bag autocracy.

The cholera plague of 1891 was brought up from India over the ancient caravan routes, thru which India has scattered leprosy and the bubonic plague upon the world. While these caravan routes were open, there was little hope of stopping the spread of the Indian evil. But today, the chief traffic between India and Russia has been the swarming of Bolshevik agents thru Afghanistan and the northern provinces, and the passing of concealed Babus thru the old battle-scarred passes.

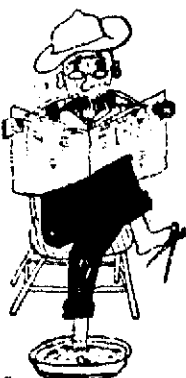

It would seem like the "mockery of hell" if it were learned that the Comma bacillus came back to Soviet Russia in 1921 with the bearers of working agreements between the men who have ruined Russia and the swarthy scamps who are ambitious to wreck the Indian Empire. Never since 1891-1892 has there been such an opportunity for a malignant plague. That was the period so graphically and fearfully described by George Kennan, the reign of corruption and dirt and oppression from top to bottom. Only Kennan could describe the Russia of today, judging by the glimpses of horror given forth now and then—and perhaps his pen of iron would break.

BETTER TIMES COMING

WITH the crops beginning to move, wheat threshing being under way all over Oklahoma and most of Kansas, the hope of prosperity comes nearer. America depends first of all upon the wealth that comes out of the ground, says the New York Commercial. It will create buying power for the farmers, thaw out frozen credits, and gradually spread itself thruout industry in general. Its immediate effect will be upon the railroads, increasing their gross earnings and, with the efforts now being made at economy, increasing also their net earnings.

A parallel development is the effort the government is making at the instance of President Harding to hasten the payment to the railroads of debts incurred by the government during the period of federal operation. This is expected to release very shortly something under \$500,000,000. Most of it will, of course, go to paying back bills, but it will nevertheless increase the purchasing power of the railroads. Nor can this amount of money be placed in circulation without improving industry generally. Undoubtedly the concerns that have supplied the railroads with materials are holding their own purchases in check because of the lack of these funds.

A Lima man avers that singing is a remedy for nervous ills. But tho it may cure the singer, what about the neighbors?

A designer of overcoats says: "Save your old overcoat. You'll need it next winter. They will be scarce."

Who ever heard of a scarcity of old overcoats? Impossible!

AN OLD WHEEZE REFUTED.

Thomas Barton of Detroit is here to join his wife, and incidentally to meet for the first time his mother-in-law, Mrs. Anna Angel—Harbor Springs (Ill.) Republican.

Mr. Ford says Mr. Edison is all right and Mr. Edison says Mr. Ford is all right and that seems to settle that but we would like to know how many of Mr. Edison's questions Mr. Ford can answer.

DID YOU EVER FEEL THAT WAY?

Give me a seat in the Arctic sea,
 On a frigid iceberg bare,
 With drifting snows to cool my toes
 And blizzards to fan my hair,
 On icebergs I'd munch with glee,
 With frost refresh my nose;
 To Eskimos I'd give my clothes,
 Let shivers comfort me!
 Ah, 'twere a bliss e'en thus to die,
 At least for a month or so,
 Until the heat wave passes by
 And cooler breezes blow.

AIR LIFEBOAT NEARS TEST

THE first lifeboat of the air, which has been built with great secrecy, is to be launched soon in England, the Birmingham News asserts.

After the official trials it will go thru a series of tests with the British fleet. If it proves to be satisfactory, a large number of the craft on a much larger scale will be constructed.

The design is the outcome of three years of secret research and tests. The flying lifeboat will be able to reach a vessel in distress at a speed of more than 100 miles an hour, and it is claimed that it will be able to ride thru the roughest storm with the confident safety of an Atlantic liner. The boats are able to taxi along the water.

Their seaworthiness is to be tested by sending the first experimental ship out with the navy, where it is to remain at sea for several days without any mother ship.

The wing span of the one now nearing completion is 140 feet. Safety in the most violent sea will come from the resilience of the hull, which is in one piece from stem to stern. When this hull strikes a huge wave it gives way slightly in much the same way that a pneumatic tire does when it strikes an obstacle on the road.

THE SPEED DEMON

THERE is a lust for speed just as there are other hurtful and devouring lusts of the body and spirit, comments the Cincinnati Enquirer.

It is just announced that a German inventor, operating in Holland, has produced an airplane which has made a record of 312 miles an hour. That means that such a machine could fly from Germany to America in one day! Incredible as this claim may appear, we have no right to dispute it. This is the age of mechanical marvels.

The new ship, which makes appear petty even the story of the Flying Carpet in the Oriental imaginary tale, includes the feature of vertical ascent among other wonderful new properties.

From France comes the news that a number of new monoplanes, possessed of engines of anything up to 600 horsepower, easily attain a speed of 220 miles an hour. These could be left practically standing still by the new German flier.

What effect is such development to have on the question of disarmament? France, particularly, scarcely is to be blamed for inclining to a reliance on defensive military operations. Doubtless her inventors will duplicate the German super-machine. And then what? Why, the rest of us must follow suit or suffer from such incomparable disadvantage.

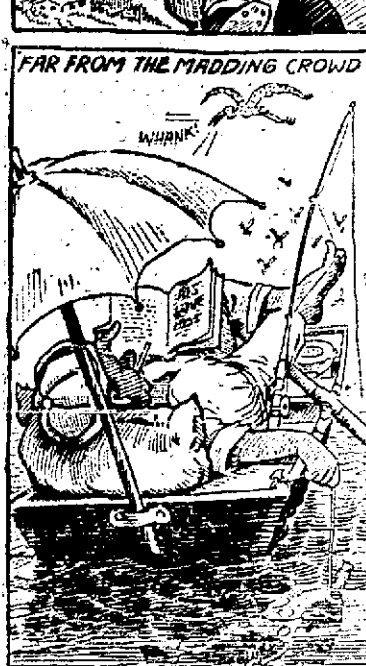

No matter what altruistic statesmen, gentle pacifists or burdened taxpaying millions may say or feel or do in the matter of disarmament, men will continue to fight.

But the speed demon is an alluring devil. Men desire to annihilate distance. Men of peace are as easily bitten by this urge as are the men of war. Business will encourage and adventure will enlarge, passions both good and evil will befriend the speed demon and strive for even more remarkable constructions.

But will the world be happier or better off than in the days of the runner, the courier, the stage coach? Not at all. The almost universal response to the urge of the speed demon is, and will continue to be, an evil obsession.

AN OPEN LETTER TO WOMEN
 Mrs. Little Tells How She Suffered and How Finally Cured
 Philadelphia, Pa.—"I was not able to do my housework and had to lie down most of the time and felt bad in my left side. My monthly periods were irregular, sometimes five or seven months apart and when they did appear would last for two weeks and were very painful. I was sick for about a year and a half and doctored but without any improvement.
 A neighbor recommended Lydia E. Pinkham's Vegetable Compound to me, and the second day after I started taking it I began to feel better and I kept on taking it for seven months. Now I keep house and perform all my household duties. You can use these facts as you please and I will recommend Vegetable Compound to everyone who suffers as I did." — Mrs. J. S. LITTLE, 3455 Livingston St., Philadelphia, Pa.
 How much harder the daily tasks of a woman become when she suffers from such distressing symptoms and weakness as did Mrs. Little. No woman should allow herself to get into such a condition because such troubles may be speedily overcome by Lydia E. Pinkham's Vegetable Compound, which for more than forty years has been restoring American women to health.

OUR OWN LITTLE SCHOOLHOUSE
 Q. Who invented mousetraps?
 A. Who didn't.
 Q. Who is Brant?
 A. The Boy Orator of the Fiaite.
 Q. Why are excursions?

rom

2. That the grade of said avenue as improved, shall be the grade established for said avenue by the City Engineer and the grade and elevation of the curbs shall be that established by the City Engineer and said improvements shall be done in accordance with the usual specifications, existing

the avenue and improvement after the completion with reference to the abutting property now on file in the Bureau of Public Works, and the Bureau of Public Works, for inspection of all persons interested; and that said plans, specifications, estimates and profiles are now hereby approved.

That the whole cost and expenses of said improvement shall be assessed in proportion and according to the benefits which may result from the improvement, upon all the lots and lands abutting along the avenue and improvement, by the following:

all of which said lots and lands are hereby determined to be specially benefited by said improvement; and the cost of said improvement to be so assessed shall include the cost⁷ and expenses of the assessment the sum

of printing and publishing notices, resolutions and ordinances required, and the cost of construction, together with interest on bonds or notes issued in anticipation of the same, together with the assessment and all other necessary expenses, which, under law, may be so assessed, that the remainder of the entire cost assessed, including the cost of interest thereon, together with the cost of any purchase or appropriation, and the expense of any appropriation provided therefor, or damages awarded to any adjoining landowner, or interest thereon, and the cost and expense of any such award shall be paid out of the proceeds of the sale or issuance of bonds or notes in the manner provided by law.

That the assessments to be levied upon said property shall be levied by the owners thereof in ten annual installments with interest on deferred payments, and that the proceeds of the bonds which shall be issued in an-

(3) days after the passage of the assessment, such cash payment shall not constitute an item of interest upon bonds or notes to be issued in anticipation of the collection of deferred installments of assessments.

5. That the bonds or notes of the City of Lima, Ohio, shall be issued in anticipation of the collection of said assessments.

6. That a notice of the passage of this resolution shall be served by the Mayor of Council, or an assistant upon the owners of all lots or lands which may be assessed, or a publication thereof shall be made as required by law; and the owners of any lots or lands so bound or published, who fail to make improvement claiming to sustain damages by reason thereof, shall file their

7. This resolution shall be published according to law, and shall be in force from and after the earliest period allowed by law.

Adopted August 1st, 1921. Attest:
James H. Jeffner, Clerk of Council.
W. B. Bennett, Secretary.

ORDINANCE NO. 1123
An ordinance amending Section Three
of an Ordinance entitled, "An Ordinance
Organizing the Fire Department"

and Bonds of the Members Thereof," passed July 10th, 1911, as thereafter amended.

BE IT ORDAINED BY THE COUNCIL OF THE CITY OF LIMA, STATE OF OHIO:

Section 1. That section three of an

organizing the Fire Department, fixing the number, salaries and bonds of the members thereof," passed July 14th, 1911, and as thereafter amended, be and the same is hereby amended to read as follows:

"Section 3. That upon the going into

the unit January 1, 1922, the bonds and salaries of the employees of the Fire Department are hereby fixed as follows:

	Annual Salary	Bond
1 Fire Chief	\$2112.00	\$2000.00

1	Captains	1782.00	1000.00
6	Lieutenants	1676.00	1000.00
2	Engineers	1716.00	1000.00
1	Electrician	1716.00	1000.00
26	Firemen		
	(3 months)	1410.00	
	Firemen		

Section 2. That this ordinance shall go into full force and effect at the

Passed August 1st, 1921. W. J. Bennett,
President. Attest: James I. Heffner,
Clerk. Approved August 2nd, 1921.
